PROFILE

Revenue Protection Officer at Thameslink Railway with a completed PhD in English and more than five years' experience in writing, editing and teaching. I bring a calm, fair and people-first approach to frontline rail work — checking tickets consistently, helping passengers with confidence and keeping clear, accurate records. My background as a content writer, editor and university instructor gives me strong communication skills, close attention to detail and the ability to stay composed under pressure. Published researcher and author of two books.
